### Constitution of a SCIENTIFIC COMMITTEE

A scientific committee is needed to supervise, advise and monitor the teaching modules prepared in the project starting from the Summer Schools discussed during the meeting of June 1<sup>st</sup>, 2021.

The role of the scientific committee is first and foremost academic (with some logistical actions). It shall be composed by **at least 2 representatives** of each partner institution (with **at least one attending** the meetings) with qualified **academic** background in the field of the project and a commitment to **reactivity**.

Given the essentially academic tasks, UniMED and the Tunisian Ministry of Higher Education can be represented by one member only.
